News Website OJT Project	PHP (Laravel 9)	2022	10 days
E-commerce OJT Project	PHP (Laravel 9)	2022	10 days

## Objectives

I am very interested in programming and am looking for experience in programming. I worked as a Junior Network & System Engineer at Myanmar Oriental Bank. I have been studying programming for over a year now. But I'm more interested in programming and software development because I like to create something new and face challenges. So I changed my career life from Network Engineer to Software Developer. I am very passionate about programming. I decided to become a guru in the web development field. My goal is to use my skill in your company to get efficiency for your organization and society.

-----  
To work in a capacity that will give me opportunity to contribute my skills to the development of a strong dynamic team by utilizing the knowledge and skills that I have acquired from previous work and education.

Thaw Thu Han
